

Lightroom

Selecting Best Images

- Once all photos are imported into LR
 - Go through each photo
 - Go to Photo Menu Bar
 - Turn on Advance to Next Photo
 - Flag each photo with a “**P**” for Pick or an “**X**” for Reject
 - Once done
 - Go to Photo Menu
 - Delete all Rejected Photos
 - Remove them from Disk (totally)
- Select all the Flagged Images using the Filter
- Then go to **Survey Mode**
 - Select the Images that are the same (Hold down Shift Key)
 - Press **N** for **Survey Mode**
 - Press **Shift Tab** to remove all the Panels
 - Selecting
 - Remove Photos that you do not want (reverse from selecting best photo)
 - Press **X** to re-move from **Survey Mode**
 - You will be left with your best image for that group
 - Tag the image with **Star Rating**
